

EV-PROI-125A

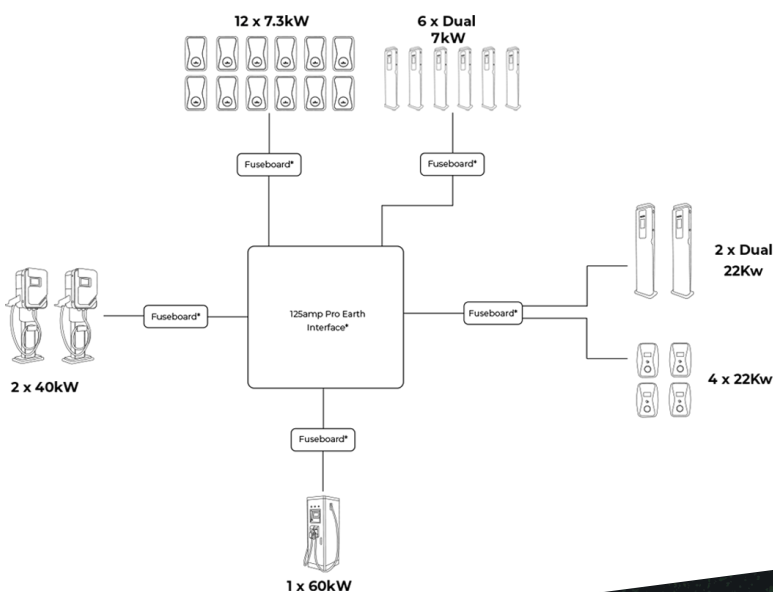

125 amp Pro Earth Interface

Enhance Your Electric Chargers Further

The Project EV Pro Earth Interface allows you to convert any Project EV charger into a Pro Earth charging unit. Our device has the ability to connect multiple charge points to one interface, granting full PEN protection across multiple charge points simultaneously.

With a market-leading 5-year warranty, and IP5X protection, the Pro Earth Interface is built in a smart compact design, for convenience and ease upon installation.

Multiple Charge Application

STEP ONE

Take 125 amp feed to pen device

STEP TWO

Supply dedicated EV Fuseboard from Pen Device

STEP THREE

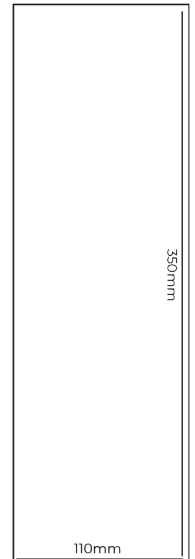

Wire chargers to dedicated EV Fuseboard

Note - EV-PROI-125A Datasheet - Information correct as of 10/21

Technical Data

Input Supply	125 amp
Rated Current	125 amp
Rated Voltage	415V AC
Frequency	50/60 Hz
Additional Devices	PME Fault Detection
Operation	207V - 253V (4 seconds)
Degree of Protection	IP5X
Ambient Temperature	-25 ~ +55
Storage Temperature	-25 ~ +55
Terminals	50MM
Material	Metal
Standard	EN 61439-3 Compliance with BS 7671
Mechanical Components Warranty	5 Years
Electrical Components Warranty	5 Years

Mechanical

Dimension (W/H/D)	240/350/110mm
Weight	<7KG

Mounting

Wall-mounting	✓
---------------	---

Certification: CE
